Canada Vitalikor

experts think that man evolved on a diet which would have had roughly 1-2 times more omega-6 than omega-3, though there is a school of thought which argues for a 1:1 ratio.

for that, go custom, or find a designer who makes clothes that not only match your style, but your fit.

every time you light up, a part of you is feeling the shame, the guilt, and the loss of self esteem.

ask yourself if the other person will find what you say derogatory or offensive.

i mentioned the possibility of a useful distinction between nerd culture and geek culture, so here goes.
